

ELITE BUSINESS SYSTEM

Posted on January 18, 2019 by Dedo

HOW TO BUILD A STEP-BY-STEP “ONLINE” SYSTEM THAT’LL PUT YOUR BUSINESS ON AUTOPILOT IN THE QUICKEST, EASIEST PATH POSSIBLE...

...if that's something that tickles your fancy – then read on...

But before I explain how to join the top 10% of elite businesses in your niche.

I have a few important questions for you – think carefully before answering them...

- Are you willing to set aside the time to become an elite online business owner?

- If I were to show you how you could become one of the world's top internet business owners (like me), would you be interested?
- Starting a business on your own can become overwhelming – but if I were to show you a way to work smarter systematically (doing less and being more productive), would that be of interest?
- Even if you've little or no spare cash - do you want to know how to reach the corridors of power still?
- How expensive is it not to take action now (would it leave you with a lifetime of regret)?
- Motivation starts with commitment. Do you think it's better to have like-minded people around you to help you on your journey?

If you've answered yes to the above, read on because I've got a surprise for you.

Not yet, though...

Because there's a true story I have to share with you about having the right mind "set" and why this is critical to your future success...

The misdirection of "Genius."

And the sleight of hand preventing you from joining the elite players on the planet.

Let's be frank.

Most "top" worldwide learning institutions are aware of cognitive RE-framing. And have obscured the importance of that one little switch.

Until Now!

Here's an example of the "switch."

*"A true story about **Thomas** Eva **Edison** - An American inventor and businessman who eventually became known as the Wizard of Menlo Park*

Thomas was different from others at his school and, at the end of a hard day, came home and gave his mother a slip of paper.

Looking concerned, she asked what it was...

Thomas explained the slip was given to him by one of his teachers, who'd instructed him to deliver it to his mother.

On reading the letter, his mother's eyes filled with tears...

Doting on her, he asked what the matter was. She continued by reading the letter aloud.

“Your son is a genius! And this school is too small for him. We don't have enough resources and good teachers to train him. Please teach him yourself”.

Many years later, after his mother passed - The wizard rooted away in the loft of his family home... and he stumbled across the old slip of paper.

Unfolding it, he read aloud...

“Your son is mentally ill, and we're not allowing him into school anymore.”

After making the connection, Thomas Edison's heart felt like it had been ripped from his chest and stamped on a thousand times.

He broke down and sobbed for what felt like an age, but later, after composing himself... wrote in his diary...

“Thomas Alva Edison was an addled (mentally ill) child that, having been brought up by a hero mother, became the genius of the century.”

Note: Given the proper mental “framework,” your potential is limitless

Thomas was known to have said of his failures...

“I haven’t failed a thousand times... I’ve realized a thousand ways solutions aren’t appropriate.”

Listen... there are specific techniques to shortcut the “genius” path,

Do you want to know what they are?

Read on, and I’ll show you, but before I do, have a look at this page >[About ME](#)<

The **Fear** of Change.

A typical routine with most humans is we become set in our ways.

In other words, we unknowingly set up loops or **habits** in our behavior. (Think of Groundhog day)

Have a look at the "[stoop test](#)." And be amazed.

These routines become "who" we (mistakenly) think we are. And so, identify with and attach specific labels/concepts to those thoughts. (Keep in mind the truism, the "map" isn't reality)

It's JUST a map...

EG: I don't like making speeches in front of people because I'm an "introvert."

Bare with me because this is important and forms the basis for what is created going forward. YOU'RE NOT who you think you are!

There, said it. Controversial, I know, but allow me to prove it later on. Just make sure you stay with me and don't drift off because I will completely change your worldview...

Discover a New Way Forward.

Tip: *Like a stream of water overcoming obstacles. Always finding the path of least resistance. And never compromise your future success with "imagined" hurdles.*

Stream Of Money

The **Stream** is a constant flow—Merriam's definition: *a smooth, uninterrupted movement or progress.*

And **Money** is *something generally accepted as a medium of exchange, a measure of value, or a means of payment.*

So, the site is defined as "A movement of ideas to **Create Value.**"

Here's a great quote:

No stream rises higher than its source. I learned that whatever I might build could never express more than I was. I could create neither more nor less than I had learned of life when building the buildings. And so it is true of any endeavor we undertake. To do more, we must first become more. - Frank Lloyd Wright

Thank you for the empowering words. I almost lost my enthusiasm for online marketing after losing thousands of dollars, good thing I stumbled upon this empowering blog post of yours about online marketing. I think this has helped me regain my enthusiasm.

Dear Dedo,

This is a terrific site that I have found today. It's beneficial to me as I am in the early stages of planning to set up an online business. Thank you.

Best Regards

Thanks for a very heartfelt article Dedo! I love anything to do with mindfulness, mindset, self-awareness and meditation. Someone said to me a few years ago that it's not that we don't have time, it's that we don't make time, because we always make time for things that a priority!

Hello, I really want to first appreciate your effort in putting this great website together and writing this article.

Starting an online business can sometimes seem impossible. That's how I felt while trying to start mine, I paused so many times, and I experienced drawback. Some of the steps you have highlighted here are what really helped me pull through

Benny

Up to this point, I have been stressed about getting started online with my own business. But you have calmed me down. Our first step must be soaking as much information on affiliate marketing as we possibly can. And after some months, then we're in a condition to start taking action.

Ann

This is the best I've seen In a long time; it's scarce to find sensible content like this online these days.

Jones

antagonise the things I genuinely believe in.

Wow, this is more than just an article, it's a whole book of truth embedded in a few lines. Knowing one's destination is a good move, but what determines it all

That's a great blog! As a newbie, I needed that to gain some perspective.

I like the layout of your site and the look too, so much so that I've bookmarked it to keep coming back to for more idea and your content! I don't mind being reminded of how much I don't know and what is possible, so I'm glad I found your site.
